

THE ECONOMIC IMPACT OF  
Ormond Beach Municipal Airport  
(OMN)

*Aviation's Benefit for Florida*

Florida's economic well-being is intrinsically entwined with its vibrant airport system and its robust aviation industry. The aviation system in Florida allows the state to capitalize on an increasingly global marketplace. Aviation in Florida both sustains and leads economic growth and development. Airports in Florida are important economic engines, and support vital health, welfare, emergency, and safety-related services.

Florida's system of commercial service and general aviation airports are important to businesses throughout the state. Air travel is essential to tourism, Florida's number one industry. Protecting and investing in airports throughout Florida will support the aviation industry and the economic benefits described in this report. With continued support, Florida's dynamic aviation system will continue to provide a significant economic return in the years to come.

## Ormond Beach Municipal Airport

Located in eastern Volusia County, Ormond Beach Municipal Airport serves many general aviation activities. With its two intersecting runways, the longest of which is 4,004 feet, the airport accommodates twin-engine general aviation aircraft. The airport's terminal is ideal for serving local users as well as those visiting the area.

Ormond Beach Municipal Airport's major tenants include Sunrise Aviation and Hangar 7 Aviation, LLC, both of which are flight training schools and fixed base operators. In addition to supporting extensive flight training activity, the airport also serves the needs of transient, business, and recreational users. All of the airport's tenants and flight activities are important to the airport's revenue streams and economic impact.

The annual economic impact of Ormond Beach Municipal Airport is associated with direct impacts that come from tenants/businesses located at the airport and construction projects that are undertaken by the airport or by on-site businesses. Indirect impacts are associated with spending from visitors who arrive in the area via general aviation aircraft.
