Kids Winter Crafts

Children making crafts

On Saturday afternoon, January 4, 2020, the Environmental Discovery Center held a Kids Winter Craft event. There were five children accompanied by their parents who attended the event.

The group used their creativity to first make a paper roll penguin that could stand up. The second craft was to create a snowman sun catcher. This one was definitely more challenging but each child did a great job. The children also had the opportunity to make the snowman face in a design that suited them.

Definitely a fun event that was enjoyed by all!
